EDUCATION

Vellore Institute of Technology (VIT)	CGPA 7.87
Bachelor of Technology - Computer Science and Engineering	
Class XII (Senior Secondary), CBSE	Percentage 79.0
Class X (Secondary), CBSE	Percentage 88.8

CAREER OBJECTIVE

Software Engineer with hands-on experience building full-stack applications and developer tools using Java, JavaScript, and cloud technologies. Strong foundation in backend APIs, system design basics, and infrastructure security. Comfortable working across the stack, writing clean code, and deploying production-ready applications.

PROJECTS

CodeBuddy: AI-Powered Code Editor

- Engineered an AI-powered code analysis bot integrated into GitHub Actions to automatically scan Pull Requests for logic errors and OWASP vulnerabilities.
- Detected 95% of security risks (e.g., SQL Injection, XSS) pre-deployment by implementing context-aware auditing with LLMs, preventing critical bugs from reaching production.
- Reduced manual code review turnaround time by 40% and saved 10+ hours of debugging per sprint by automatically filtering syntax errors and code smells.

InfraGuard: Cloud Security Scanner

- Developed a static analysis security tool to validate Infrastructure-as-Code (Terraform) templates against industry security standards before deployment.
- Blocked 100% of critical misconfigurations (e.g., public S3 buckets, unrestricted Security Groups) by enforcing automated security gates in the CI/CD pipeline.
- Automated remediation suggestions for detected risks, which reduced manual security audit time by 50% and improved developer fix-rates by 30%.

TECHNICAL STRENGTHS

Languages	Python, SQL, C++, Java, JavaScript
Web / Frameworks	React, Node.js, Express, FastAPI, Monaco Editor, OpenAI API
Web Technologies	HTML5, CSS3
Databases	MongoDB, MySQL, PostgreSQL
Cloud - DevOps	AWS (EC2, S3, IAM), Docker, GitHub Actions (CI)
Security - Infra	Cloud Formation/Terraform scanning, IAM policy analysis, rule-based validation
Tools - Testing	Git, GitHub, Postman, VS Code, Linux, Unit

CERTIFICATIONS

Cloud Computing	NPTEL 2024
AWS Solution Architect-Associate	Ethnus with Amazon Web Services 2025
Programming with Python-Professional Certificate	OpenEDG Python Institute 2025
AWS Solution Architect Associate	NASSCOM 2026

EXTRA-CURRICULAR

Qualified for Round 2 of TCS CodeVita Season 13, achieving an All India Rank of 4014 among 500,000+ participants. Demonstrated strong problem-solving, logical reasoning, and time management skills in a 6-hour competitive programming contest.
